Watermate[®] Self Watering Tank

350mL

Hassle-free plant care is here with the Holman Watermate[®]! Designed to keep your plants hydrated without the need for constant monitoring. Using a wick to transfer water from the tank directly to your plant's roots.

7 day watering example:

50mL = daily water use of established Peace Lily in ø200mm plastic pot*

Day 1:	350mL	_____
Day 2:	300mL	_____
Day 3:	250mL	_____
Day 4:	200mL	_____
Day 5:	150mL	_____
Day 6:	100mL	_____
Day 7:	50mL	_____

* Water usage can vary between plant species, location and type of pot. Careful monitoring for 1-2 weeks ensures Watermate[®] is functioning correctly.
