Backyard Revolution

Turbine Drive
Oscillating Sprinkler
2864H

The **HOLMAN Oscillating Sprinkler** is ideal for watering large areas. The rectangular spray pattern can be adjusted to accommodate various sized lawns with a maximum coverage of 300m².

The sprinkler is equipped with left and right adjustment levers, working between a vertical 90° angle to suit any lawn area, allowing watering to a specific edge. The centre spray pattern feature is great for median strips or narrow lawns. With the flexibility of this oscillating sprinkler, watering has never been so easy.

Features:

- ✓ Easy to adjust spray pattern
- ✓ Strong gear train reliability
- ✓ Quick release end plug to flush sprinkler
- ✓ Use end plug to unblock any debris
- ✓ Sprinkler snap on adaptor included
